MilesChecker
Checkpoint timing for expeditions

Know where every team is.

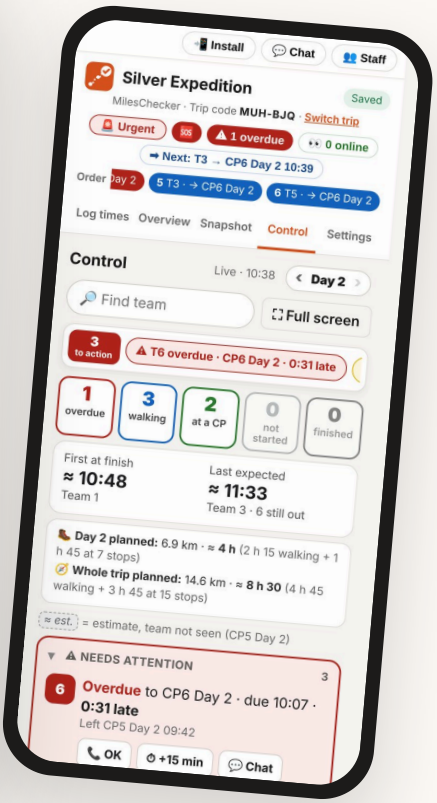

Live checkpoint timing for DofE Adventurous Journeys and school expeditions. Staff log arrivals and departures with two taps; leaders see every team, every checkpoint and every late arrival, as it happens.

Snapshot: every team on the map

Log times: two taps per team

Control: what needs action now

Still running it on group chat?

Screen after screen of "T4 at CP3 10:42" messages. Who is late? Which checkpoint hasn't reported? Scroll and hope.

One live picture instead.

Every team's position, automatic overdue alerts and a full timed record – even where there is no signal.

Safeguarding and data security

First names only – no surnames, dates of birth, photos or medical details.

Each school's data is its own – leaders control access and can remove guest staff.

Students are not tracked – only staff can share location, by choice; it stops after 2 hours.

A reliable record – who logged or changed what, and when. Encrypted in transit and at rest.

See it on your next trip.

For schools and expedition providers. Book a free demo – founding-customer pricing available.
